- VIRTUAL ASSISTANT
- EFFECTIVE COMMUNICATION
- Web developer
- React.js Development
- Responsive UI/UX Design
- Problem-Solving
- Communication & Collaboration

## Projects

### Portfolio Website

Remote | Feb 2023 - Present

Tools: React + vite + Tailwindcss UI libraries

I built a modern, responsive portfolio website to showcase my skills, projects, and contact information as a frontend developer. The site is developed using React, Tailwind CSS, and Vite, with smooth scroll navigation and light/dark theme support. It includes animated sections like hero, projects, and a contact form powered by Web3Forms for real-time email submissions. I also integrated Calendly for easy meeting scheduling, and added form validation, alerts, and reset functionality to ensure a smooth user experience. The entire site is designed to reflect clean code, strong UI/UX principles, and developer professionalism.

## Contact Info

BAHAWAL PUR, PUNJAB  
Pakistan  
zbhai6139@gmail.com  
03071575764

## Education

### Allama iqbal college bahawal pur

Bahwal pur / BS Computer  
Science

Programming , Python , Web  
Development (2025)

3.8 GPA

### Glims Institute of Modern Studies

Bahawal pur / ADP

Computer , Programming ,  
Data Science (2023)

3.6 GPA

## Certifications

- Computer expert  
Friends computer  
zone | 2020

## Languages

- Saraiki - Native
- Urdu - Native
- English - Medium

## Hobbies

- Learning new things
- Mastering in programming
- learn new everyday
- Focus on goals
